Subject: Microsoft Settlement

To Whom it may Concern:

I find that this settlement addresses the concerns brought on by the government. It will clearly give competitors and Microsoft a clear understanding of the rules of the marketplace. And unlike the settlements desired by the non-signing attorney generals and competitors AOL Time Warner (who by the way seems much bigger down even though they claim Microsoft has prevented them from going about their business) allows both Microsoft and its competitors to compete. And rather than giving out handicaps to competitors, this settlement will show that the better product will become the dominant product.

I thank you for your time,

Vincent Rogers
